

Essentials Clamp-On Power

Clamp-on power provides convenient access to power and charging in a clean, surface-mounted design. Designed for quick installation without modifying the worksurface, it combines AC power, USB-A and USB-C charging to deliver a practical solution for a wide range of workspace applications.

Product Highlights

Quick, clamp-on installation

Installs securely to the edge of the worksurface without drilling or modifying the furniture.

Convenient power access

Keeps AC power and USB charging within easy reach to support today's workspace technology.

Integrated charging

Features dual AC receptacles, USB-A and USB-C ports, including 65W USB-C Power Delivery for fast device charging.

Clean, modern design

A low-profile design that complements a variety of workspace environments while maintaining a clean aesthetic.

Available finish options

Offered in Black and White to coordinate with a range of furniture finishes.

- Max surface thickness 2"
- Black or White finish
- 2 simplex, 15A / 125V
- USB-A+C
- 106"L three-prong cord
- UL approved
