

Essentials In-Surface Power

In-surface power installs directly into the worksurface for a clean appearance. The slim, recessed design extends only 0.75" below the top, so it stays out of the way of legs and knees. Two AC outlets and integrated USB-A and USB-C charging support laptops, phones, and standard workstation devices.

Product Highlights

Installs into the worksurface

Drops into a cut-out in the top for a built-in appearance.

Integrated charging

Features dual AC receptacles, USB-A and USB-C ports, including 65W USB-C Power Delivery for fast device charging.

Slim profile

A narrow unit that extends only 0.75" below the top.
